

## 2005 Animation

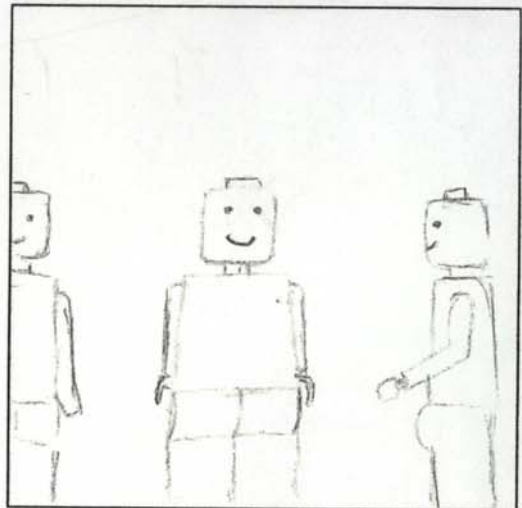

Opening: Camera shows a warehouse with the robotnauts logo on the front doors

Camera moves into warehouse, the doors open revealing the workshop

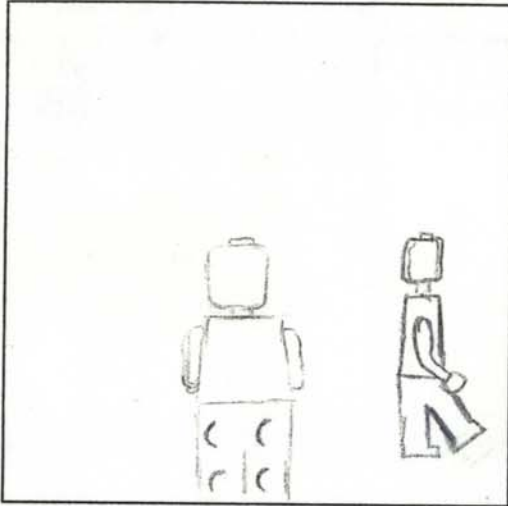

Camera swoops on to a desk that contains a blueprint of a lego robot

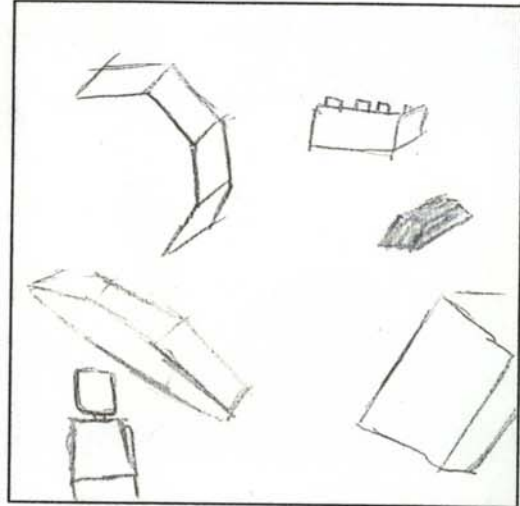

Camera swings off of the blueprints and on to three lego men

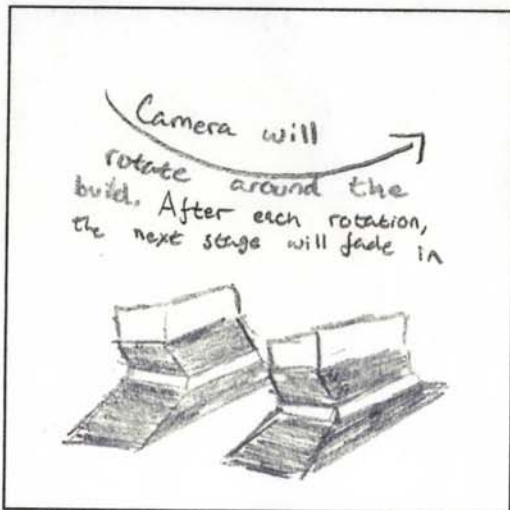

2005 Animation

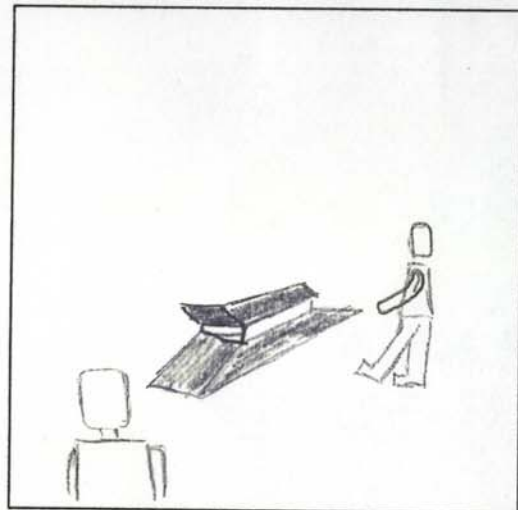

The three lego men had their heads and leave to prepare for construction of the robot

The lego men begin construction on the robot by massing lego pieces together

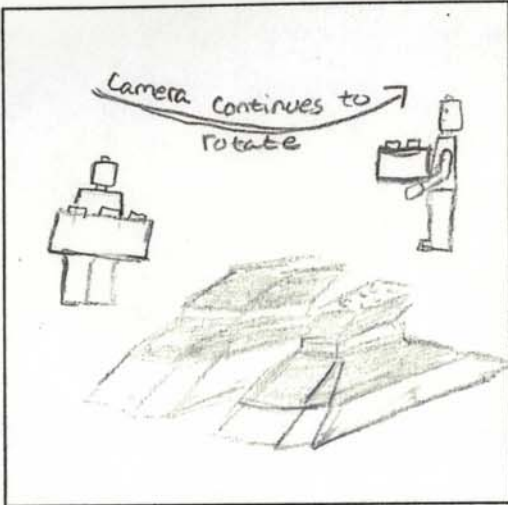

Montage starts of lego men constructing the robot. The camera stays in constant motion spinning around the construction site. Stages of completeness fade into one another

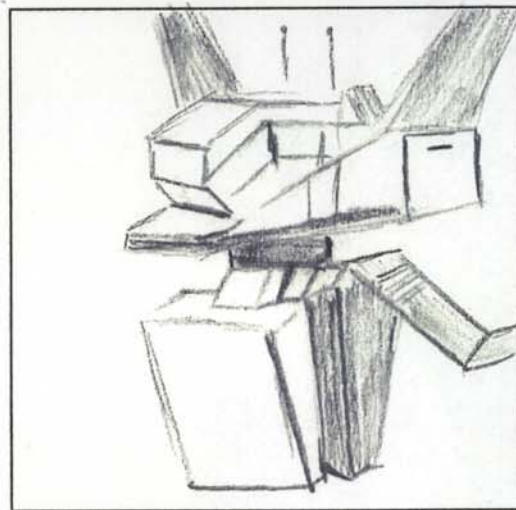

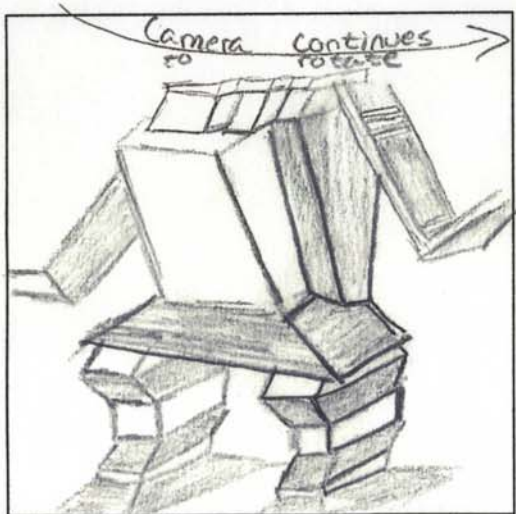

lego men start preliminary construction for the robot

2005 Animation

lego men continue to work on  
the robot. Cuts from the montage  
show the feet of the robot  
completed.

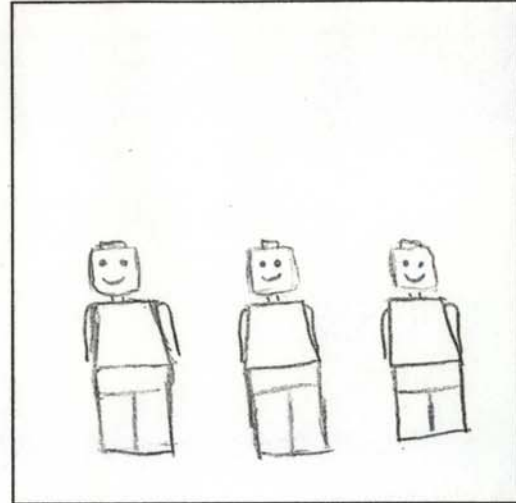

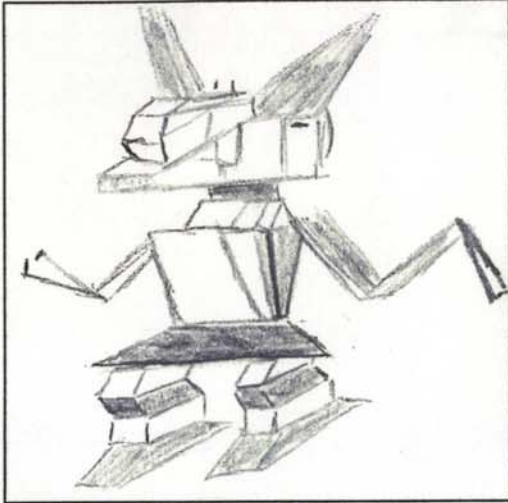

Up to the chest of the robot  
completed

Arms and torso completed

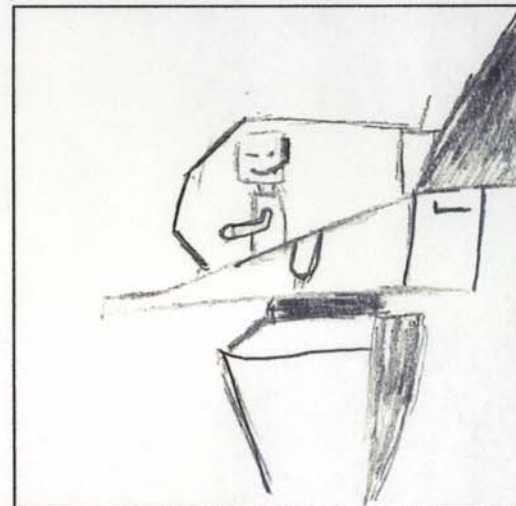

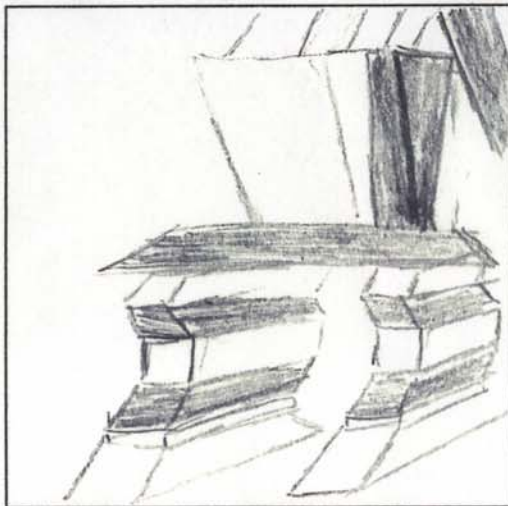

Head completed

2005 Animation

Montage stops. The robot is completed. The camera shows a full shot of the robot in all of his glory

The camera swings around to see the obviously pleased lego men

The lego men climb into the robot to prepare to leave

End shot of the robot leaving the warehouse. The camera zooms into the cockpit where a lego man winks. Cut to black
